CMI BUSINESS
SCHOOL

WHY CMI Business School?

CMI is an innovative Business School that offers programs of excellence at the forefront of responsible business and organizational management.

At CMI, we work to lead, promote and execute scientific and technological research activities that encompass the entire development and implementation process, from the exploration of the limits of knowledge to the end of the life cycle of all products and services, considering the needs of a sustainable and circular economy.

CMI Business School offers the highest quality standards in its services to society. All its activities are developed through continuous improvement processes, supported by modern and advanced technological and management systems.

CMI is a signatory of the Global Compact and a member of the UN PRME (Principles for Responsible Management Education) to promote Corporate Social Responsibility and Sustainability.

MASTER'S DEGREE IN CORPORATE SOCIAL RESPONSIBILITY AND SUSTAINABILITY

CMI offers its Master's Degree in CSR and Sustainability, a unique and specialized program to achieve, after one year, a truly professional and personal development transformation.

This program is aimed to people who want to embody the leadership that society demands, committed to the growth of organizations that produce a positive impact.

The program is taught with the most modern technologies and methodologies in pedagogy and with a faculty of research professors of excellence both in the professional, academic and teaching fields. The Master in CSR and Sustainability has an international approach to business and organizations for sustainable development in the global context.

The Master's Degree in CSR and Sustainability will allow you to maximize your chances of success in the development of your career, training you for the management and administration of companies and organizations; your employability will improve, helping you find jobs in large multinationals, medium and small companies, as well as in social enterprises and foundations.

Through training excellence, this program will enable you to successfully lead areas, teams, projects, organizations and the creation of innovative companies with a focus on responsible and sustainable growth.
